

1 1/4 Inch Smurf Tube - Pull String Cap

Introducing our new innovative conduit cap, designed to streamline your projects effortlessly. Invented and designed by real life contractors, this unique cap features a specialized pull-string integration, ensuring that your pull-string remains securely fastened, eliminating the risk of misplacement. With this convenient solution, you can bid farewell to return calls and prioritize your crews to complete more critical tasks.

Features

- Sturdy ABS Plastic design that can withstand the toughest environments and temperatures, for indoor and outdoor applications.
- Fits most 1 1/4 inch flex and PVC conduit.
- Sleek universal slotted top and sturdy side bracket to accept a wide range of different types of pull strings.
- Optional screw hole and self-tapping screws to help secure the cap to the conduit even in the toughest environments.

*Conduit and pull string not included
