Phone and Data Plugs

All RJ11, RJ12 and RJ45 Molded plugs have a molded boot that joins the connector to the cable and the RJ connector lock is unprotected. Typically used in applications where there are not many insertion cycles, like in a hard-to-access space. This becomes the male end of the cable that would then fit into a female connector, such as a RJ45 Keystone jack (female adaptor).

Part Number	Description
20-5701	**RJ11 Molded Plug for Round Cable 4 Conductor**
20-5702	**RJ12 Molded Plug for Round Cable 6 Conductor**
20-5703	**RJ45 Molded Plug for Round Cable 8 Conductor**
20-5706	**Cat 6 RJ45 Plug - 25 Pack**
20-5713	**RJ45, Cat 5e, 8 Conducter UTP, 100 Pack**
20-5716	**Cat 6 RJ 45 Plug - 100 Pack**
20-5755	**Cat 5e RJ45 Plug EZ, 100 Pack**
20-5765	**Cat 6 RJ45 Plug EZ, 100 Pack**

Note: EZ indicates pass through plugs
