

Recessed Pro Power Kit with Straight Blade Inlet

DataComm Electronics' Recessed Pro-Power Kit with Straight Blade Inlet is used to install power and low voltage cables behind your HDTV, your amplifier or other audio/video devices. This power relocation kit allows you to pass low voltage cables and power through the wall, creating a professional, clean look for every home theater.

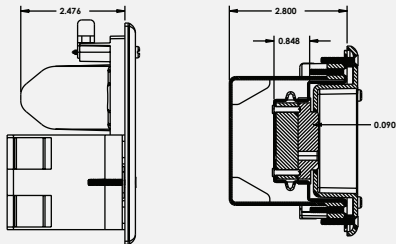

Features

- Low profile design fits behind the thinnest TV mounts and HDTV's
- Grounded recessed single receptacle* allows power to be installed behind an HDTV or other similar applications
- Conceal multiple low voltage cables behind your flat panel TV
- Perfect for eliminating connections at the wall
- Can be installed upright or upside down
- Mounting wings are molded into the media plate and fasten tightly against the back of the wall
- No low voltage mounting plate or old work ring required
- Quick and easy to install
- Parts Included:
 - Recessed Cable Plate with Power
 - Recessed Cable Plate with Straight Blade Inlet
 - Two (2) Electrical Outlet Boxes
 - 6 Ft. 16/2 with Ground Extension Cord
 - Three (3) Wire Nuts
