

1-Gang Decora **Brush Plate**

"Feature Sheet"

P/N: 45-0018-UWH

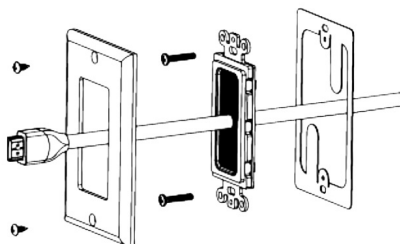

P/N: 45-0018-BK

DataComm's Decora Brush Plates offer a sleek and efficient solution for managing low-voltage cables in residential and commercial settings. Designed to fit standard single-gang low voltage brackets, these brush plates provide a clean, professional appearance by allowing cables to pass through walls without the need for termination at the plate.

Key Features:

- **Cable Management:** Ideal for HDMI, VGA, audio, and other low-voltage cables, facilitating a tidy and organized setup.
- **Compatibility:** Fits standard single-gang Low Voltage Brackets, ensuring versatility and ease of installation.
- **Durability:** Constructed from high-quality materials to ensure long-term reliability and performance.
- **Aesthetic Integration:** Blends seamlessly with existing wall plates, maintaining the aesthetic integrity of the space.
