

# REMOTE DEVICE MOUNT

**Part # 62-5440-V2**

Discover the ultimate solution for your HVAC, home automation, and security systems prewiring needs! DataComm's Remote Device Mount not only marks the installation spot but also securely holds prewires in place. Once the wall finish is applied, locating the prewire becomes a breeze. Plus, it's designed to allow most sensors to adjust in and out of the wall, ensuring either a custom or flush finish that seamlessly blends with your wall. Perfect for creating a sleek, integrated look in any home.
