

Plastic Media Enclosures Accessories: Enclosure Shelf

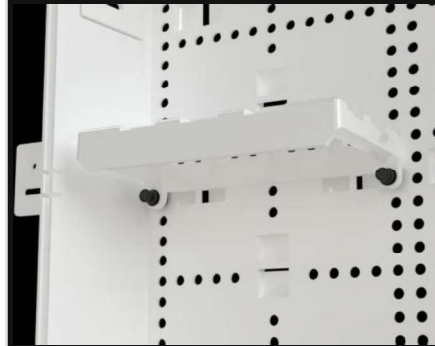

DataComm Electronics' Enclosure Shelf is designed to provide additional mounting functionality to the DataComm Electronics' Plastic Media Enclosures series. This shelf securely supports heavier or oversized components using a combination of pushpins and velcro straps.

Features

- Molded from high-strength, lightweight PC/ABS plastic, ensuring long-lasting performance and easy handling
- Installs quickly and cleanly using the universal mounting system found in all DataComm Electronics' Plastic Media Enclosures; no tools required
- Its design allows for improved organization and serviceability inside the enclosure

80-1500-SHELF
